PPSS Cut Resistant Clothing made using... **Cut-Tex® PRO**

Many of our great high performance cut resistant garments have already been supplied to numerous homeland security professionals as well as industry sectors involving flat glass and sheet metal handling.

The outstanding fabric being used for our garments is our very own Cut-Tex® PRO, developed and manufactured only by us here in the UK.

Cut-Tex® PRO is offering ISO 13997: 1999 Blade Cut Resistance Level 5 (the highest possible),

EN 388:2003 Blade Cut Resistance Level 5 (the highest possible) and ASTM F-1790 Blade Cut Resistance Level 4.

In addition to the above we can also confirm that Cut-Tex® PRO is offering EN 388:2003 Tear Resistance Level 4 (the highest possible) and Abrasion Resistance Level 4 (the highest level possible).

Apart from supplying you with our following cut resistant products, PPSS is also able to design, manufacture and supply you with bespoke cut resistant garments, based on your operational risks, threats and duties.
