About BitePRO® Bite Resistant Clothing

BitePRO® Bite Resistant Clothing is a highly acclaimed brand of scratch, pinch, and bite resistant clothing. Our garments have been specifically designed to reduce the risk of injury as a direct result of dealing with challenging behaviour.

Challenging behaviour, also known as behaviours which challenge, is often seen in people with health problems that affect communication and the brain, such as learning disabilities, autism, or dementia. Such behaviour can include:

- Verbal aggression
- Physical aggression
- Self-harm
- Destructiveness
- Disruptiveness

It is important to differentiate between self-injurious behaviour and behaviour that injures other people. There appears to be a lot of research and literature about self-injury in association with challenging behaviour.

However, there is very little discussion when people with challenging behaviour injure other people i.e. healthcare or educational professionals, carers or psychiatric social worker.

We understand most individuals that cause such injuries to others through challenging behaviour, are not doing it intentionally. This is not a conscious, pre-meditated act of violence. Instead, it is invariably a form of communication. It is a way for a certain individual to control their environment when they are otherwise unable to easily communicate.

In the context of challenging behaviour there are specific behaviours that are likely to cause injury to others or oneself, the most common being:

- Biting
- Scratching
- Kicking
- Punching
- Grabbing
- Hair pulling
- Squeezing
- Pinching
- Head banging

Specially designed BitePRO® Bite Resistant Clothing & Arm Guards are being effectively utilised by those who support, care for, and educate individuals with challenging behaviour. We at BitePRO® supply individuals in the medical, care and special education sector worldwide. However, we also have a growing number of private individuals who wish to protect themselves from others i.e. family members or loved ones displaying challenging behaviour.

Please note, our products are all machine washable, comfortable to wear for long periods of time, and they are latex free. The quality and value of our products is unparalleled with garments lasting for several years with the correct care and maintenance.

Why Are Bite Resistant Arm Guards & Clothing So Important?

- A skin break increases the risk of infection and makes it necessary to be sure tetanus shots are up-to-date.
- A skin break is often obvious but can be tough to tell in some cases. Anything that looks like the top layer of skin has come off should be considered a skin break.
- Wound infection occurs in 9-50% of human bites.
- Risk of severe infection is particularly high in bite injuries.
- The average human bite pressure is in the range of 2840 to 4270 psi.
- The human bite forces range from 55 lbs to 280 lbs... averaging 162 lbs.

BitePRO® Arm Guards Version 3

Product: **BitePRO® Essentials Grab Bag**

Model #: **700209**

The BitePRO® Essentials Grab Bag ensures full upper body protection in a handy drawstring bag. Suited to any mental health care facility, special educational needs school or care home.

Staff are given complete protection from skin breaking and subsequent infections, suitable for every day wear.

Purchasing the Essentials Grab Bag saves you 10% on purchasing the products individually, and you receive the drawstring BitePRO® bag for free.

Features & Benefits

- ✓ Users can quickly choose an appropriate garment to deal with a particular incident or patient
- ✓ Wide range of garment sizes available
- ✓ Cost-effective for health care facilities with a frequent turnaround of operational staff
- ✓ Bag contains same size of each product
- ✓ All three products can be layered and worn together for additional protection
- ✓ Includes our best selling two products

What's Included:

- ✓ 1 x Version 3 Arm Guards (S-XL)
- ✓ 1 x Bite Resistant Gloves - Short (S-2XL)
- ✓ 1 x Turtleneck Jacket (S-2XL)

Product: **BitePRO® Bite Resistant Full Arm Guards V4**

Model #: **100502**

This model is offering full arm protection from bites, scratches, and nips. This product also features a durable and water-resistant Nylon liner, protecting the wearer from bodily fluids, which can easily be cleaned and wiped off. The thumb loops keep the arm guards secure in periods of high activity.

This product is also available with added protection; model 100506 (Version 4+).

Features & Benefits

- ✓ Full arm guard design – sold as one unit
- ✓ Excellent bite resistance
- ✓ Quick and easy to put on
- ✓ Highly breathable inner lining
- ✓ Durable and water repellent outer material
- ✓ 100% Latex free
- ✓ Thumb-loops to keep sleeves in perfect position even when arms are fully stretched or during high level of activity
- ✓ Can be worn discretely under clothing
- ✓ Lower arm, upper arm and shoulder protection
- ✓ Fully lined product

Model #: **100505**

Made with our bite resistant fabric, this model can also be worn underneath existing garments. It is similar to our Version 4 arm guards, but without the outer Nylon liner, making it even more light-weight and comfortable. However, this model is not offering protection from bodily fluids.

Features & Benefits

- ✓ Full arm guard design – sold as one unit
- ✓ Lower arm, upper arm and shoulder protection
- ✓ Can be worn both over or under clothing
- ✓ Excellent bite resistance
- ✓ Worn tight around the forearm
- ✓ Thumbholes to keep the sleeves in perfect position even when arms are fully stretched or during high levels of activity
- ✓ Also offering bite protection on inside and back of hand

1. Find Your Hand Width

Wrap a tailor's measuring tape around your dominant hand just below the knuckles, excluding your thumb, and make a fist. This is your 'hand width'.

EU	US	Inches	CM
6	XS	6-7	15-17
7	S	7-8	17-20
8	M	8-9	20-22
9	L	9-10	22-25
10	XL	10-11	25-27
11	2XL	11+	28+

2. Find Your Hand Length

Measure from the bottom edge of your palm to the tip of your middle finger to find your 'finger length'.

EU	US	Inches	CM
6	XS	6.5	16.5
7	S	7	18
8	M	7.5	19
9	L	8	20
10	XL	8.5	21.5

Caring for Your BitePRO® Clothing

- This product is designed to minimise the risk of injury from challenging behaviours such as biting, pinching, slash injuries, and scratching.
- Added protection garments not only reduce the risk of a bite breaking the skin but also reduce the associated pain, bruising and blunt force trauma.
- This product does not protect from hypodermic needles or similar sharp pointed objects
- Cut-Tex® PRO is an ultra-high performance cut resistant fabric. However, it is not completely cut proof.
- BitePRO® garments should be stored in a temperate dry environment.
- If you suspect aging or loss of performance with your product please contact us directly and email in photographic images.
- Do not attempt to repair BitePRO® Clothing garments yourself as we use specialist threads to stitch and sew garments.
- BitePRO® garments are not recyclable. For safe disposal please return your product to BitePRO® Clothing Ltd.

Maintenance

- Do not wear this product if damaged, always inspect prior to use
- Do not leave in a contaminated condition, launder immediately
- When not worn, store this product in cool dry conditions away from direct sunlight
- Wash dark colours separately
- Do not wash with fabric conditioner or bleach
- Reshape whilst damp
- Do not tumble dry
