- Police Officers
- Homeland Security
- Prison & Corrections Professionals

AVAILABLE IN BOXES OF 100 PCS ONLY

Material

Mesh	100% Nylon (breathable)
Panel	100% LDPE (low density polyethylene)

How easy is it to put on?

It is easier than other products on the market: there are no straps or Velcro.

Is it possible or the person to remove it once they are handcuffed?

No one has been able to remove one yet.

Is vision impaired while wearing the mask?

No.

Is there any discomfort when wearing the mask?

No.

How easy is it to remove the mask while containing any fluids (saliva or blood)?

Follow the visual instructions provided on each packet and this process is simple clean and self-containing.

If a person is hyperventilating will the mask be drawn to the mouth and cause additional panic?

No, if the mask is fitted correctly this should not happen. However, the person should be constantly supervised while wearing the mask.

Are there other colours available?

No, not at the moment as this colour offers the clearest vision for both officers and the person wearing the mask.

Who wears the mask, the officer or the prisoner?

We strongly suggest the combatant or aggressive member of the public will be requested/ forced to wear it.
