# BitePRO® Bite Resistant Clothing

The risk of being bitten by a human is a reality for professionals working in specialist schools for severe learning disabilities, challenging behaviour, special needs or autism, as well as care workers within mental health care facilities and psychiatric hospitals.

Human bites can be even more dangerous than animal bites because of the large quantity and types of bacteria and viruses contained in the human mouth.

Human bites that break the skin can become infected, and even such wounds may not seem dangerous, but the risk of infection is high. They have been shown to transmit hepatitis B, hepatitis C, herpes simplex virus (HSV) syphilis, tuberculosis, actinomycosis, and tetanus. Evidence suggests also unlikely, but possible transmission of the human immunodeficiency virus (HIV).

**BitePRO® Bite Resistant Clothing** can effectively help reduce the risk of such injuries. It is made from the highly acclaimed Cut-Tex® PRO fabric, offering tested and certified Blade Cut Resistance Level 5 (according to the BS EN 388:2016 standard) and is offering extremely high puncture resistance from human teeth.

Please note **BitePRO® Bite Resistant Clothing** reduces the risk of human teeth penetrating the other person's skin but does not stop the potentially painful effect due to the pressure and force being used. This means the risk of infection will be eliminated but the risk of bruising remains.

However, our **BitePRO® Bite Resistant Arm Guards** Version 1 and Version 4 sleeves are also available with additional protection. These particular models will also substantially reduce the pain inflicted due to the pressure and force during a human bite.

## Legal & Financial Consequences

Today's legal environment will require a risk assessment to be conducted, highlighting any realistic risk employees are being exposed to e.g. being bitten. The purpose of such is to very clearly identifying a) the precise risk, b) the potential liability and c) the implementation of effective mitigating measures.

Most professionals within these sectors either have been bitten by another human being at some point in their career, or they know of someone who has been bitten. This means their employer will already have identified a realistic risk to the employee's safety and well-being, and in most countries in the civilised world that means such risk must be addressed and mitigated.

The Portland Tribune reported on 01 February 2019 that eight educational assistants are suing Portland Public Schools and several administrators for \$3.6 million alleging the special needs students they were supposed to assist frequently assaulted them by biting and scratching etc. The lawsuit accused the district partly of negligence. The lawsuit claimed the district and administrators did not sufficiently protect the educational assistants or students.

## Why Bite Resistant Arm Guards & Clothing Are So Important?

- A skin break increases the risk of infection and makes it necessary to be sure tetanus shots are up-to-date.
- A skin break is often obvious but can be tough to tell in some cases. Anything that looks like the top layer of skin has come off should be considered a skin break.
- Wound infection occurs in 9-50% of human bites.
- Risk of severe infection is particularly high in bite injuries.
- The average human bite pressure is in the range of 2840 to 4270 psi.
- The human bite forces range from 55 lbs to 280 lbs... averaging 162 lbs.

*BitePRO® Arm Guard Version 1*

# About Cut-Tex® PRO

## Cut-Tex® PRO

The Ultimate Cut Protection™

Cut-Tex® PRO is an ultra-high performance cut, bite and slash resistant fabric, comfortable to wear, fully machine washable and of truly exceptional strength and durability - making it the ideal material for BitePRO® Arm Guards.

*As you can see below, Cut-Tex® PRO performs very highly in all cut, tear and abrasion tests:*

### Cut-Tex® PRO Performance Chart:

#### > Cut Resistance - ANSI/ISEA 2016 Blade Resistance Levels A1-A9

#### > Abrasion Resistance - EN 388:2016 Abrasion Resistance Levels 1-4

#### > Cut Resistance - EN 388:2003 (coupe test) Cut Resistance Levels 1-5

#### > Tear Resistance - EN 388:2016 Tear Resistance Levels 1-4

#### > Puncture Resistance - EN 388:2016 Puncture Resistance Levels 1-4

#### > Cut Resistance - EN ISO 13997 (TDM-100 Test)

Product: **BitePRO® Front Only Body Armour**

Model #: **400118F (Female) | 400118M (Male)**

BitePRO® Front Only Body Armour is stab and blunt force trauma resistant - and protects the wearer from all main attacks targeting the front of the body.

#### Features & Benefits

- Concealable and lightweight
- Protects the most important front body parts - shields the spine, ribs and all vital organs
- Comfortably worn
- Easily put on and taken off within seconds
- Indefinite lifespan (compared to Kevlar's 3-5 year lifespan)

#### Who Is This Product Suitable For?

Professionals working within these sectors:

- Mental Health Care
- Special Needs
- Special Education
- Challenging Behaviour
- Learning Disabilities
- Autism

#### Material

3mm thin polycarbonate (same material used for riot shields) front plate, moulded to the upper body shape

**Blunt Trauma Protection** Good level of protection from high energy thrusts, impact based assaults (eg kicks, punches and blows) from any blunt object

**Puncture Protection** Good level of protection from narrower blades & hypodermic needles

**Stab Protection** 16 Joules - tested in-house

Sizes XS - 4XL

Weight 1KG (Size L)

**Clothing Care** Machine washable covers  
Protective fillers can be easily removed within seconds prior to washing

## 1. Find Your Hand Width

Wrap a tailor's measuring tape around your dominant hand just below the knuckles, excluding your thumb, and make a fist. This is your 'hand width'.

EU Glove size	US Glove size	Inches	CMs
6	XS	6-7	15-17
7	S	7-8	17-20
8	M	8-9	20-22
9	L	9-10	22-25
10	XL	10-11	25-27
11	2XL	11+	28+

## 2. Find Your Hand Length

Measure from the bottom edge of your palm to the tip of your middle finger to find your 'finger length'.

EU Glove size	US Glove size	Inches	CMs
6	XS	6.5	16.5
7	S	7	18
8	M	7.5	19
9	L	8	20
10	XL	8.5	21.5
11	2XL	9	23
